THE PEACE AND RESPECT TO THE DIFFERENCE

Have you lately heard that due to the multiple conflicts suffered in different countries people are talking about respecting diversity and majority? Well, I am inviting you to reflect on this topic being important to understand so many conflicts among multiple groups.

When you say you are respectful to others, you usually do it without thinking in what it really means. It is easy to understand how people who are similar to you think and act. But what happens when you interact with someone different from you? Someone who belongs to another social class? Someone whose aims are completely different, or someone who is from another religion?

I think your answer is similar to most people, sometimes without thinking about it and other times sure of what you do, you isolate those people, you discriminate them or you just impose your ideas on them.

This is what is happening right now in our cities, in every country. It is very difficult to understand each other and we don’t want to make the effort, we just decide to ignore them and sometimes we even deny their rights or demand them to act the way we want.

What is worse about it, is that this causes resentment on others. It is important to analyze and think about our attitude towards those who are different. They also have the right to live with dignity, to be listened to, to belong to human groups in which they can develop themselves as whole beings.

Let’s think that peace begins inside ourselves when we see others as humans, similar to us and as God’s sons, who also want to live a happy life........

This is a great opportunity to learn English in different ways!!!
All we know is that we have very good teachers. We talked with them and they say that they feel very pleased with their groups. They feel as mothers because they feel responsible with this mission to help the girls morally. They are with the girls in the good and bad times.

They want to be homeroom teachers because they like to help the girls, they say that when you are a homeroom teacher you have more time to share with the students and they feel like a part of the group.

Most of the teachers that are homeroom teachers want to be, because of the possibility the homeroom teachers have with their students and because it's another way to help the girls and family, other teachers feel they are capable of listening to the girls.

The 5th graders say that their homeroom teachers understand them, help them and that they are very good teachers and friends.

Canada's Trip

The parents made a farewell party to the girls that were going to Canada. It was in Crepes and Waffles at the Campestre Mall.

The next day we went to school and took the bus, everybody started crying. When we arrived at the airport many people looked at us like special girls.

We boarded the airplane and took many pictures.

We arrived at Bogota and went to the hotel. It was very big and beautiful, none of the girls slept that night, because we needed to leave to the airport at 3:00 a.m.

Then we arrived at Houston and we stayed there six hours. After that we left for Canada.

The first day we took the placement test and then organized the house and the rooms.

Every day we studied until 12:30 and then we went on a field trip. We did our homework and talked with our friends.

The visits to Montreal, Ontario, Kingston and Quebec were interesting and special.

We think that Canada's trip was an excellent experience because we learned lots of English and about another culture.

By Camila Arango

Canadian Culture

When we went to Canada we saw that the people there were from different races and cultures. We saw Chinese, French, Vietnamese and Hindu people. There are also many different religions like Christians, Catholics and Jews.

When this happens in a country there is a lot of respect for each person. People eat a lot of Chinese food, pasta and fast food. They are very honest and nice. Canadians are very punctual, they are always on time. People there are very simple and they are special too.

All kinds of people from different countries and religions dress according to their culture and all the people respect that.

OUR CLASSES IN CANADA

In Canada our class was very interesting we always woke up at 7:00 o’clock. We were five in each house and one chaperone, so we had to take a quick shower because breakfast was at 8:30.

We were divided in two groups. The girls in group 1 were the ones who needed to reinforce certain topics in English. The girls in group 2 were the ones that had a higher English level. Our first class was from 8:30 am until 9:45 am. In this class group 1 worked speaking and playing games to practice English and the first class of group 2 was grammar and writing, then came recess. It was a 15 minute recess. We ate and sometimes spoke in English and sometimes in Spanish. At 10:00 am we went back to class. In that class group 1 did the same as group 2 did before recess and group 2 did the same as group 1 did before recess. At 12:00 am we finished class and went to have lunch. That was from 12:00 pm until 1:00 pm then we went to field trips with Michel, Susan, and our Colombian teachers Adriana and Marcela.

Changes from 4th to 5th grade

It’s not like coming from 3rd to 4th grade. It is more than that because we not only change in academic aspects, but we also change our way of thinking. Some changes are:

- Teachers: first, there was one teacher for four subjects, now there is one for each subject.
- Accumulatives: they are some tests that review everything we have seen in the subject.
- Schedule: our schedule changes because we go to recess later and because on Thursday we have group direction for 30 minutes, so classes are shorter, and on the accumulative day classes are shorter too.
- School section: we go to Middle School and we have a new principal Angela Maria Restrepo.

Academically: 5th grade is harder but if we are responsible it is not going to be that hard.

Clothes: in P.E 4th grade we wore shorts and now we wear a sweat suit.
The way we think...

Now we are more interested in other things like boys, fashion, our social life.

The youngest girls are from Transition and First grade, they practice on Tuesdays and Fridays.

The older girls are from fifth grade and they practice on Mondays and Thursdays.

They all practice in the coliseum from 3:00 to 4:15 in the afternoon.

RETREAT

This year some groups went to Monticello to have a retreat. We went on August 16th and we learned a lot of things like:

* To share with different people.
* We got to know our friends much better.
* To take care of our body.
* We talked about our dreams and we made a poster.
* We remembered when we were babies and our favorite TV programs.
* We wrote about our hobbies.
* We learned about our body changes.

This retreat was very important for us because we remembered good times. We wore the P. E. uniform. We had a very good time, sharing and learning new things. We learned some important values, like honesty, generosity, love, and respect. This event is a good opportunity that the school gives us because there we reflect about our acts. We enjoyed this retreat a lot!!!

Fifth Grade English Class

In English class we had good moments, we learned different activities that we liked very much.

We read beautiful, sad and happy stories and all these stories gave us a message. In the "Railway Children" we did a fun activity, it was a presentation of all the story chapters.

With the story "A Gift for Alicia" we did some workshops. With the story "Through Grandpa's Eyes" we went around the school with our eyes covered listening and touching everything around us because we wanted to learn about the things Grandpa felt being blind. In the story "My Mother Sends Her Wisdom" we did different activities, and we saw the movie "Stepmom", we compared the characters and situations.

In Colombia we celebrate special days and at school too. These days we have a very nice time. This year for Saint Valentine's day we did workshops, puzzles and for Saint Patrick's we did fun things but the best was to learn the meaning of this day. For all the occasions including Secretary's day and Women's day we did a journal writing.

We also have an activity called Pen Pal, this activity is that we write to a boy or a girl in Florida, U.S.A. and they write back to us.

The two projects that we did were very fun, the last project was the newspaper that ends with this article.

We like very much English class but the best thing are the nice teachers.

Seniors’ Cup Concert

"Good people do the best things".

On Wednesday, September 18th there was a concert to open the Seniors’ cup. The concert was in the school coliseum.

The tickets for the concert cost $3000 and many people helped a lot by buying them. The school did a contest with the tickets and the grade that sold the most was SB. It was important to buy the tickets because with that money we helped the kids from the orchestra.

The kids that played the instruments are very poor and want a good future. These kids played the: violin, cello, saxophone, trumpet, tuba, drums, flute, clarinet etc. They played classical and Colombian music. They make a big effort because they practice in their free time.

This concert was very special for the school and for all the people. Some girls from school wrote a letter with a picture to say thanks to the kids.

"The concert was very special for all of us."

SENIORS’ CUP

One of the most important events of our school is Seniors' Cup. The athletes practicis all the year for this event. We have a lot of guests like Fundación Nuevo Marymount from Bogotá, Palermo, La Enseñanza, Los Cedros, San Jose de las Vegas and others. We have cheerleaders too and they make a wonderful presentation. We have a lot of sports like basketball, volleyball, skating, olympic gym, softball and others.

Those who don’t practice any sport can watch the games, walk around school, eat, saw the shows in the auditorium, listen to the “minileka” music or dance. Seniors’ Cup has an interesting story and it is a tradition that everybody likes. The first Seniors’ Cup was on May 20, 21, 22 of 1981. There was a year when the school didn’t do Seniors’ Cup. First it had another name that was "Copa Bachilleres Marymount".

The Seniors want to leave us their memory of the years they have spent at school by making Seniors’ Cup, that is a great cultural and sport event.

The Twin Towers were located in Manhattan, New York, one was a 107 story-floor building and the other was a 110 story-floor building.

They were touristic places that had many stores, jeweleries, banks and almost 45,000 tourists that visited each day.

Both Twin Towers were destroyed by airplanes. The whole world thinks that Osama Bin Laden was responsible for the attacks.

Interview to Camila Eusse (5A)
1. What do you think about this tragedy?
   * I think this was very bad because many innocent people died.

2. Would you like the Twin Towers to be rebuilt?
   * Yes, because the Twin Towers were a national monument and they were a very interesting place to visit.

Opinion About the World Situation

Everyone knows about the world situation. Some people are afraid, some are with a bad attitude, and some don't think about it. But everyone should be interested in the situation.

The economy is going down because of the war. The poor people in general are in war because they want to live better with a home, school, food, etc... The countries are fighting because some people don't respect other cultures and religions.

What do you think about all this?
We know that we are in a bad situation but we can overcome this.
How can we do better?
Helping others, talking, everyone doing their part, by having peace at home, school and family. We can make a better world to live in.
Remember that there are more good people than we think!!!!!!

Reflection about U.S.A.

The disaster of the Twin Towers and the Pentagon made us begin thinking.

Before people weren't very united but now they are because the incident of the Twin Towers affected everybody's life. Now everybody is fighting together against terrorism.

This disaster not only affected the United States, it also affected the whole world, like in Afghanistan there are lots of women and children suffering the consequences of the attacks.

We wish that none of this had happened and everybody wishes to have peace again in the world.

VIRTUAL SCHOOL

Virtual Schools began in Medellín a year ago.

The logo that represents Virtual School is a toy named "VIRTUOSO" used to encourage people to use this resource.

The Schools that are using Virtual School resource are: Alcázares, Marymount, Jesus María, San Ignacio, San José de las Vegas and others.

Other schools from Cali and Bogotá also belong to Virtual School.

In virtual school you can find:
Chat: there you can chat with other people that are on line.
Interesting sites
My homework: the homework that some teachers assign is there with the instructions.
My translator and dictionary: you can translate one word from Spanish to English.
On the first page you find:
My community
My school
The news

MENU > it is called the "Modulo de Educación Virtual".
All this about virtual school is very interesting because if you don’t go to school because you are sick or you have to achieve some goals the teacher can explain to you through the chat.

The work that the teachers assign can be done in graphics, pictures or written.

Another part is called "PAUTON", there you can advertise something that you want to give away or sell.
Shopping Trolley: there with internet and Virtual School you can buy many things but only through Conavi.

Janet Jackson

Janet Jackson is a wonderful singer with a wonderful voice. She is very famous. She has won two MTV music awards, that have shown her how her fans love her. She is Michael Jackson's sister, both of them are very talented.
She has been outstanding in her choreographies and concerts, because they are very original and you can notice that they work very hard on it.
She is a great singer! Here are the lyrics of one of her best songs:

"Someone to call my lover"

Back on the road again
Feeling kind of lonely
And looking for the right guy
To be mine.
Friends say I'm crazy 'cause
Easily I fall in love
You gotta do it different
This time.
(b/section):
Maybe we'll meet at a bar
He'll drive a funky car.
Maybe we'll meet at a club
If fall so deeply in love
He'll tell me I'm the one
And we'll have so much fun.
I'll be the girl of his dreams maybe.
(chorus):
Alright maybe gonna find him today
I gotta get someone to call my lover
Yeah baby come on
Alright baby come in
Pass my way
I gotta get someone to call my lover
Yeah baby come on.
I spoil them when I'm in love
Giving them what they dream of
Sometimes it's not a good thing but I'm blind.

Looking for a guy
don't want him to shine
But he is gonna have the Qualities
That I like in a man
Strong, smart affectionate
He's gotta be all for me
And I'll be too
You see happily.
(b/section) then (chorus).

Movie Comments
"Coyote Ugly"

This is a very interesting movie. It's about a very beautiful woman. This movie takes place in a bar, a place where young people go to drink and to dance. There are five women in charge of it. Four of them dance in the bar and the other is the manager who lives in the bar.

One day one girl wants to work in the city and finds a job in the bar "Coyote Ugly" as a bar tender but she is very worried because she doesn't know how to dance and she doesn't drink, but in the bar she has to drink.

There they have some rules to follow like not having a boyfriend in the bar, but the disk jockey is her boyfriend and one day in the bar there is a fight because she is with another man.

So this movie is about a girl who sings and all the problems she has in the bar.

Our opinion:
We think this is a very good movie that shows us a different life and another kind of experience.

FRIENDSHIP

Having a friendship is very interesting because with your friends you can share many things, have experiences, have fun or go out with them. They are always there in good and bad times.

Having a friendship is very important for your lives, because you learn lots of things from it.

There are many ways to be a good friend for example: being honest, loving them the way they are, respecting their opinions or helping them when they are in trouble.

It’s not easy to make good friends. You have to talk about what you like and when she or he is talking, listen very carefully and she or he is going to know that you like her or his things and she or he can think that you are a good friend.

HALLOWEEN

Halloween is the day for kids, witches, ghosts, monsters and all those things that exist in our nightmares. It is the day to wear a costume, some are pretty but others are ugly. We go door by door singing a song "Trick or Treat" to ask for candies.

In October we watch many scary movies about Halloween and things like: witches and ghosts.
Halloween story:

Some indians believed in Saman the God of the dead, and they believed that Saman encouraged the fury of bad spirits.

One of the most important things that symbol Halloween are the pumpkins, they are used to represent an ugly face with a candle inside.
